

W1

Spring Clip

Spring clips are designed to distribute pressure uniformly around the application zone, thanks to the material used in their manufacture

Their use is recommended when the hose is subject to rapid changes in temperature which can cause expansion and contraction of the materials used in the assembly.

These clips are quick and easy to assemble and can even be mounted manually in some cases, without the need for tools.

Nominal Ø	Part n°	Ø di	b	a ±0,05	s	Box Quantity (MOQ)	Outer Packing
6	0201402-5	5,5 ±0,1	7	3,0	0,5	500	8.000
