

# ESPIROCLEAN FAT 80Bar

## CHARACTERISTICS

Hose made by extrusion of vinyl materials, reinforced inside with a polyester wire thread, which provides it great resistance to elongation and stretching ruptures.

The colour of the inner layer is white, while the intermediate layer and the cover are blue. The materials of the three layers have a special chemical formulation, exempt from phthalates, and food quality, even for those foods with high fat content.

Temperature range between  $-15^{\circ}\text{C}$  y  $+100^{\circ}\text{C}$

## APPLICATIONS

This hose is used to clean food industrial facilities and restaurants with hot water. Another use is to impulse food liquids at high temperature, even those with high fat content.
