## PRODUCT CERTIFICATION

We certify that our product “Espirocristal Gasolina” is made from plasticized PVC, and that due to its chemical composition is suitable for the low pressure transportation of gasoline, and other hydrocarbons.

We also certify that the raw materials used in its manufacturing fulfil the European Directive 2002/95/EC (RoHS) and therefore this product is not hazardous for the final user or for the environment.

Yours faithfully

Javier Narváez  
Quality Manager
